

## **Chapter- 7**

### **A Comparative study of Offices Inspected by the Committee for the First time and after 10 Years**

7.1 Government of India has adopted various measures to promote use of Official Language Hindi in the official work of the Union. Among these, the most important is the review of progress made in the use of the Official Language in the official work of the Union and presentation of the report to the President by the Committee of Parliament on Official Language after conducting Official Language inspections of various offices located all over the country. On the one hand the Committee takes stock of the progress made in the use of Official Language in Central Government offices, PSUs, nationalised Banks, etc. located all over the country, on the other hand it also holds an important responsibility by presenting the report to the President and according rightful place to Hindi by presenting possible solutions to the obstacles in the way of it becoming the Official Language of the country.

7.2 Inspections, along with other aspects of official works, play an important role in successful implementation of any policy of the Government. These Inspections are not the last resort to attain the objective, but are occasions where we reflect and decide our future course of action.

7.3 India is a multilingual country. In such a set up, inspections play an important role in establishing Official Language Hindi as an instrument of unifying force and working on the ethos of one world one family by systematizing and developing it. It is important to continue official language inspections in the interest of better implementation of the official language in the government offices and also as an instrument of achieving our objectives, and instilling in us a new energy. The series of Inspections conducted becomes milestones which inspire us to work with even more commitment and punctuality.

7.4 In the light of the above, the Committee has collected informations from 1<sup>st</sup> April, 2005 to 30 September, 2010 of 869 offices inspected for the first time and 236 offices inspected again after 10 years and presented a scenario of the implementation of the official language policy, the detail of which can be seen at Annexure “A”.

7.5 It is evident from the data given in the table regarding the offices inspected by the committee for the first time and the offices inspected again after 10 years that in almost all the offices a large number of officers/staff are yet to be trained in Hindi. It is also observed that the offices which have officers/employees with either working knowledge or proficiency in Hindi are not utilizing their knowledge. In this regard, the Committee is of the opinion that the Department of Official Language should make Hindi training more useful and efficient. Also, Officers/staff trained in the Hindi workshops or possessing working knowledge or proficiency in Hindi, hardly do their official work in Hindi. The reason behind this is that after completion of training when these officers/staff attend their offices, they don't find the environment conducive to do their official work in Hindi. In this regard it has been felt that the senior officers too should be trained separately in the use of Official Language Hindi. Lessons for them should include objective oriented topics, some interesting and inspiring lessons pertaining to Official Language Hindi so that when these officers go to their offices after completion of their training, they get a Hindi-friendly atmosphere so that not only do they do their official work in Hindi, but also become a source of inspiration for the staff working under them.

7.6 So far as compliance of Rule 3 (3) of Official Language Act 1963 is concerned, it is evident from the table that out of 869 offices inspected for the first time during the above period 132 were found violating Section 3 (3) of the Official Language Act, 1963 whereas, in 236 offices which were inspected second time after ten years, only 27 were found violating this section. The Committee, therefore, again recommends that the documents that come under Section 3 (3) should compulsorily be issued in bilingual form. To achieve the target, Deptt. of Official Language should periodically issue strict orders so that Ministries/Headquarters strengthen their monitoring set up for compliance of the above section by their subordinate offices.

7.7 The fact that has emerged from the list of notified offices under Section 10 (4) of the Official Language Act, 1976 that there are large number of offices yet to be notified under the above Section. In this regard, the Committee is of the view that Ministries/Headquarters should ascertain the number of subordinate offices under their administrative control and are not notified Section 10 (4) and the reasons thereof. If this is due to lack of training of staff, arrangements may be made at the earliest and the offices should be notified under the above Section, so that after the offices get notified, the individual orders to officers/staff who have proficiency in Hindi could be issued under Rule 8 (4).

7.8 A large number of entries in the registers used in the offices as well as their headings are still being done in English. Proper orders should be issued to write Headings in Hindi on registers as well as for entries in Hindi in registers as per guidelines of the Department of Official Language. The committee also suggests that every government office in region 'A' & 'B' should ensure that target of check point be active and headlines of registers as well as the entries therein should cent percent be in Hindi.

7.9 Some of the offices in region 'A', 'B' & 'C' are not doing satisfactory work in Hindi correspondence according to stipulated target of the Department of Official Language in this regard. But in some offices work is being done in accordance with the stipulated target. Committee, therefore, recommends that Hindi correspondence in the administrative work of the Union, according to the stipulated target should be done by inspiring and encouraging officers/staff. The Committee also expects that Ministries/Headquarters should organize encouragement programme at their own level and should reward those officers and offices under them with certificates and appropriate prizes for doing their maximum official work in Hindi. This will instill in them a sense of responsibility towards the Official Language Hindi, and will assist in creating a very conducive environment for the use of Hindi in their offices which will encourage employees to do most of their official work in Hindi.

7.10 Proper resources are required to ensure progressive use of Official Language Hindi. The Government of India expects that all offices must have bilingual computers so that they can do their work in Hindi according to the stipulated target. While analyzing the data, the Committee observed, that during the period from 1<sup>st</sup> April, 2005 to 30<sup>th</sup> September, 2010, 117 offices out of 869 offices inspected for the first time have been found to be lacking in bilingual computers as per the stipulated target. 451 offices were found to be doing less than 50 % of their work in Hindi on computers. On the other hand, 42 offices out of 236 offices which were inspected again after 10 years were having less number of bilingual computers as per the stipulated target and 108 offices were found to be doing less than 50 % of their work in Hindi by using computers. The Committee is of the opinion that the lack of resources and their less usage as per the target of the Official Language is a major hindrance in the implementation of the Official Language in the offices. It will not be out of place to mention that for the implementation of a policy, monitoring mechanism should be strong enough. The Government of

India has established various monitoring machinery to ensure the desired implementation of its policy of implementation of Official Language. Official Language inspections play an important role in ensuring the use of the Official Language Hindi in the offices. Out of the offices inspected for the first time, the Committee found that in 255 offices, none were inspected even once from the point of view of Official language whereas inspections of the offices carried out again after 10 years, Committee found that 66 offices were not inspected for the point of view of Official Language even in a year. Committee, therefore, recommends that officers from the Ministries/Headquarters when visiting their offices for inspections on other aspects should also take stock of the implementation of official language policy, so that the monitoring machinery is strengthened and the progressive use of the Official Language is ensured. The Committee suggests that an inspection proforma be prepared in this regard and whenever an officer visits for any inspection of a subordinate office, he should alongwith his inspection, compulsorily conduct official language inspection as per the proforma. During the inspection, the officer should also take stock of the proper availability of the resources in regard to official language policy. Such type of inspection should be done at least once in a year. This inspection may be done by the Ministry or by the Headquarter of the office concerned or by any zonal or regional office above it, or by the Deptt of Official Language, an inspection calendar be prepared in this regard and accordingly, inspections can be carried out. Even when a high level officer or an officer of the highest level is visiting or inspecting a office, he should invariably fill the above mentioned inspection proforma, then only officials will be serious towards proper implementation of the official language Hindi.

7.11 It has been observed during various inspections of the Committee that in some offices the Official Language posts are lying vacant. The use of Official Language Hindi in these offices was also not found very satisfactory. As per the table, 96 offices out of 869 offices inspected for the first time were found to have vacant posts of Hindi staff and 102 offices were found where the Hindi posts were not as per the norms set by the Department of Official Language. Similarly, out of 236 offices which were inspected again after 10 years, 65 were found to have Hindi posts lying vacant and 28 offices were found to have Hindi posts not in accordance with the norms prescribed by the Department of Official Language. The Committee in this regards suggests that the Department of Official Language should periodically issue directive under a time-bound programme for initiating the filling of the Official Language posts and Ministries/Headquarters should also be directed to take appropriate action for filling up of the Official Language posts in the offices under them at the earliest, and all the Hindi posts should be in accordance with the norms prescribed by the Department of Official Language. The Committee found that out of the offices inspected for the first time in 377 offices, Hindi typists/stenographers do not have knowledge of Hindi typing/stenography, whereas offices Hindi typing/stenography knowing staffs are not being utilized fully in 319 offices . When the situation in the offices inspected again after 10 years were analysed, it was found that in 138 offices typists/stenographers do not have knowledge of Hindi typing/stenography, and in 134 offices Hindi typing/stenography knowing staffs are not being fully utilized. It has also been observed that in large Ministries/Departments the situation is even worse.

7.12 With a view to enhance the vocabulary and knowledge of language of officers/staff, the Department of Official Language has issued directive for purchase of books in accordance with the stipulated target. The Committee in its inspections has found that in some offices purchase of books are not being done according to the stipulated target. In the absence of reference books, literary books, officers/staffs remain ignorant about the use of the Official Language, and hence unable to use them in their official works. Hence, all the offices should ensure complete compliance of the above rule, so

that as a useful resource of knowledge books can be helpful in the use of the Official Language in the offices.

7.13 The Government of India has made provision of different Committees to ensure progressive use of Official Language Hindi in the work of the Union. Among these, the role of Official Language Implementation Committee at the office level is very important. This committee holds four meetings in a year. Important decisions regarding the use of Official Language are taken in these meetings and their implementation is ensured. The Committee during its inspections found that in the offices where these committees have not been constituted the use of official language is relatively unsatisfactory. 155 offices out of 869 offices, which were inspected for the first time have though constituted the Official Language Implementation Committees, are not holding the meeting regularly and in 62 offices the OLIC is yet to be constituted. The offices that were inspected again after 10 years, out of 236 offices, in 41 offices meetings are not being conducted regularly and in 3 offices OLIC is yet to be formed. The Official Language Implementation Committee plays an important role in monitoring the progress of the use of Official Language in the offices. The progress can be monitored only if the meetings are held regularly in every quarter, and in every meeting the quarterly report of every section is discussed with sincerity. Committee, therefore, recommends that all the offices should ensure that OLIC is constituted in their office and its meetings should be held regularly. Concerned Ministries/Headquarters should also monitor that the meetings are held regularly and their representatives also participate in these meetings. The Department of Official Language through its representative of the Regional Implementation offices takes stock of the offices where the committees are being constituted or in which offices the meetings are not being held regularly. Monitoring machinery concerning formation of committee and its meetings should be strengthened and its complete implementation should be ensured through the quarterly reports sent to the Department of Official Language/Ministries/Headquarters so that the qualitative changes become visible.

7.14 Through attending Hindi workshops officers/staff are expected to get familiar with the use of official language Hindi and use it in their day to day official work. But the Committee in its inspections found that 154 offices out of 869 offices which were inspected for the first time were found to have not organized any Hindi workshop as per stipulated target and although 151 offices have organized Hindi workshops but participation of the expected number of officers/staff was not there. But so far as those offices which were inspected after 10 years are concerned, out of 236 offices 148 offices had not conducted any Hindi workshops and 144 offices didn't have participation as per stipulated target. The committee, therefore, recommends that separate Hindi workshop for senior officers should be organized and experts should be invited in them, so that a positive environment for Hindi is created. The committee is also of the opinion that there is a need of spreading awareness in all the offices regarding Hindi workshops. It is also expected that as per the stipulated target by the Department of Official Language Hindi workshops should be organized in the offices and alongwith the staff, those officers who have only working knowledge of Hindi too should participate in good numbers.

7.15 In the light of the above data and the prevailing conditions, the Committee is of the opinion that with resources, inspiration, encouragement; a strong monitoring machinery, compliance can be ensured regarding the constitutional provisions, Acts, Rules, etc. regarding policy of the Official Language Hindi. The Committee has also felt that the offices which have never been inspected by the Committee or any other body, are lagging behind in the use of Official Language in compared to the offices which have been inspected at least once by the committee or other bodies. Hence, the Committee on the basis of the above makes following recommendations:-

**7.16 (1) Working in Hindi by Officers/staffs trained in Hindi/ having working knowledge / proficiency in Hindi**

The Committee found that even officers/staffs that are trained in Hindi or have working knowledge/proficiency in Hindi, do not accomplish their official work in Hindi. Considering these facts, the Committee recommends that the Department of Official Language should add an item in the Proforma of the quarterly report sent by Ministries/Headquarters/Offices, explaining what percentage of the original work performed by the senior officers of the concerned office is done by them in Hindi. The Committee also recommends that the Department of Official Language should issue directives to all Ministries/Departments to train officers/staffs in a given time frame (two years) and also strengthen the monitoring machinery in this regard.

(2) So far as Section 3 (3) of the Official Language Act, 1963 is concerned, Committee on the basis of inspections conducted throughout the country feels that in many offices this section is still not being complied with. The Committee recommends that the Department of Official Language should issue directives to the head of these offices so that all the documents issued under this Section could be issued bilingually. The Committee in its 8<sup>th</sup> part of the report had recommended abolishing the compulsion of English under Section 3(3) in region 'A'. Now in partial modification of the above it recommends that after 60 years of Hindi becoming the Official Language, the Department of Official Language should consider fixing a time-limit for initiating requisite amendments in Section 3(3) of Official Language Act 1963, abolishing the compulsion of English in region 'A' on the condition that barring the documents (put up before Parliament) all the documents under Section 3 (3) will be issued in Hindi. If any officer/staff finds it inconvenient he can be provided English version by the Hindi section at the earliest. This will not cause any inconvenience to officer/staff and after a long time requisite amendments too will be done in the provisions related to bilingualism in region 'A' under Section 3 (3).

**(3) Organizing Hindi Workshops**

With a view to remove hesitation in the Hindi knowing officers/staff to do their official work in Hindi, the Committee in its 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> Part of the report had already recommended about Hindi workshops to be organized, which were accepted accordingly. However, the data collected from the various inspections reveal that many offices either don't organize workshops or even if they organize it they don't ensure participation of requisite number of officers/staff. Thus, the Committee again recommends with the amendment that the Department of Official Language should issue an order stating therein that the workshops should be organized once in every quarter i.e. 4 times in a year and out of those 4 workshops at least 1 workshop should be specially for senior officers. The monitoring machinery of these workshops too should be made effective so that Hindi knowing officers/staff can do their official work in Hindi as per the stipulated target.

**(4) Notification of Offices under Rule 10 (4)**

During various inspections it has come to the notice of the Committee that still there are offices which are required to be notified under Rule 10 (4). The condition of Official

Language in these offices too is found to be not very satisfactory. Hence, the Committee recommends that the Department of Official Language should issue directives to Ministries/Headquarters to ensure notification of offices under them in a time bound (for a period of two years) programme so that individual order could be issued to officers/staff having proficiency in Hindi so as to ensure progressive use of Official Language Hindi.

(5) To make the monitoring machinery effective the Committee recommends that an Proforma (related to Official Language) should be prepared and whenever an officer (including senior most officers) visits an office on tour or for conducting inspections, he should invariably conduct an Official Language inspection of that office and fill the above mentioned proforma. It should be ensured that every office is inspected at least once every year by some higher authority. This inspection can be conducted by Ministry/Headquarter, any higher level office or by the Department of Official Language.

(6) So far as monitoring is concerned all the four meetings of the Official Language Implementation Committee in all the offices should be ensured and progress of Official Language in all the sections of the office should be monitored in the meetings.

-----
